## CONTENTS

56 Cards

1 Squeaky  
Banana

Instructions

## OBJECT OF THE GAME

To collect the most cards. Players collect cards by squeaking the banana when they see exactly five fruits of the same type in play.

## SET UP

1. Put the banana in the middle of the table.
2. The oldest player shuffles the cards and deals them all, one at a time, to form one pile for each player.
3. Without looking at the cards, players keep their piles of cards face-down on the table.

## PLAYING THE GAME

### I. FLIPPING CARDS

Starting on the dealer's left, players take turns (one player at a time) flipping over the top card from their face-down piles and placing it face up on the table. After they have cards face-up, players place their next card on top of their face-up cards in such a way that they cover those cards and only the top card is visible. When players flip cards, they must grasp the end of the card that is farthest away from themselves so they don't see the cards before other players do.

## 2. SPOTTING 5 OF THE SAME FRUIT

When the face-up cards show exactly five fruits of the same type (for example, five bananas or five limes), players race to bop the banana. The player who bops the banana first collects all of the face-up cards and places them face-down underneath his/her stack of face-down cards.

*There are five strawberries showing on the cards, so players race to bop the banana.*

## 3. MORE OR LESS THAN 5

If a player bops the banana when the face-up cards don't show exactly five of the same fruit, that player must place one of his/her face-down cards on top of each of the other players' face-down piles as a penalty.

## 4. RUNNING OUT OF CARDS

When players run out of face-down cards they are not out of the game. They don't turn over cards, but they continue to try to bop the banana. If they bop the banana they collect all of the face-up cards, shuffle them, turn them face-down, and turn over cards again when it's their turn. Players are only out of the game when they run out of face-down cards and when another player collects their face-up cards.

## 5. TWO PLAYERS LEFT

When only two players are left in the game, the game ends the next time a player bops the banana and collects the face-up cards. If one of the two players bops the banana when there aren't exactly five of the same fruit showing, the other player collects all of the face-up cards and the game ends.

## WINNING THE GAME

The player with the most cards wins the game.
